PROFILE

A highly motivated BBA Business Information Systems student at the University of Education, Winneba, with over 4 years of hands-on experience as Assistant Manager at Fruits Haven. Adept at bridging business and technology through systems analysis, bookkeeping automation, and digital innovation. Successfully led the development of a custom bookkeeping system for inventory, sales, and expenses using accounting principles and practical business insights. A natural team leader and problem-solver, with proven ability to drive customer satisfaction and business growth.

Currently building strong foundations in backend software development through the ALX Professional Foundations Program, with a long-term goal of specializing in cybersecurity. Committed to using technology to solve real-world problems
